Parenting solution, <ANGPAPA>, which makes infant care much easier
ANGPAPA makes the products sincerely with the heart of every parent.

First, ANGPAPA is useful.

We make the most useful products for infant care with many parents and babies involving in planning and developing process. Enjoy the convenience that only ANGPAPA can provide.

Second, ANGPAPA is safe.

We use the premium materials, with the heart of parents who want to give safer and healthier products to our precious babies. We provide only reliable and safe products made in Korea through constant research and development with numerous companies.

Three, it's more easier with ANGPAPA.

ANGPAPA consistently thinks "How can we help a mom and baby to be more comfortable?" when developing products. Using ANGPAPA, enjoy leisurely happiness that you've never felt before.

BRAND NAME

'Ang' is the sound that babies make when they bite something, and 'Papa' stands for parents who always think of their adorable kids.

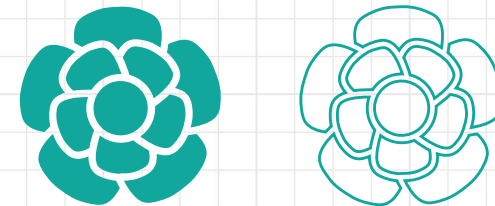

ANGPAPA means that we make baby products sincerely with the heart of parents.

02

ANGPAPA Teething Rusk Holder

ANGPAPA Teething Rusk Holder can hold Teething Rusk comfortably and prevent crumbs from falling to the floors.
This Angpapa made products is much safer with green non-toxic silicon.

ANGPAPA TEETHING RUSKS & HOLDER

Angpapa Teething Rusk provides parents a break. Using Teething Rusk and Holder, your travel, eating-out, and going out will be much easier.

When you worry about snack crumbs on baby's hands and floor, try Angpapa Teething Rusk Holder!

It's made from platinum catalyst silicone free from toxic substances and has ergonomic curved design. You can rely on our product.

■ ANGPAPA TEETHING RUSKS & HOLDER

The curve structure with wide top and narrow bottom, which the infant-product designers have come up through careful research, hold Teething Rusk so that it won't come off.

The clip of Angpapa's holder is not normal plastic. It's made of polyamide (PA) material with excellent heat resistance and durability. Also, it is free from germs and harmful substances.

It doesn't contain any chemicals such as glue, as we use special structural bonding.

Its specially designed inner bumps, which have been carefully positioned, hold the Teething Rusk firmly to the end.

Its wide, trumpet-shaped mouth prevents the Teething Rusk from coming off or going deeply into baby's mouth. It also prevents baby's saliva from flowing down.
