Wireless Rechargeable Laser Therapy Device

SOLAR Lay

Launched Patch-Style for the first time in Korea
Laser Therapy Device

Laser Therapy Device with Thermal Moxa Function
and the relevant Laser Therapy Set.

Attachable Laser Therapy Device using medical double-sided tape.

Laser of 650nm wavelength put out from semiconductor laser irradiates onto the skin and the light energy (laser) delivered as such onto the body produces photochemical reaction, stimulating and activating the tissues, which in turn relieves pain.

What is 'SOLAR LAY'?

- Patch-Style Laser Therapy Device**

Attachable-Detachable Patch-Type Laser Therapy Device using medical double-sided tape to attach on the area for treatment can be used hands-free.

- Intensive care and comprehensive care treatment are all possible with 10ea device**

The size of possible laser irradiation area is 3mm, allowing treatments for both local areas and acupoints. 10ea treatment device can simultaneously be applied to massive area for treatment.

- Laser Therapy Device with thermal moxa function and the relevant laser therapy set**

Laser Therapy Device that offers heat moxa effect by delivering heat from 115mw laser diode via diode cover to the area for treatment.

The world's first Dazhui Acupoint moxibustion device

SOLAR Neck Electric Heat Therapy Product

This is non-smoke moxa cautery device to warm up and vibrate on the Dazhui Acupoint around the neck. It is wireless, non-chargeable device allowing users to use it anywhere with ease. The mild mugwort scent without producing any smoke helps you relax.

The world's first Dazhui acupoint moxibustion device

- The "Dazhui Acupoint", one of the key acupuncture points on the neck, is located right below the bone protruding the highest at the back of your neck when you bend your neck. It is crucial to keep the point warm because it is known to be channel of influx of cold wind or other negative energy. If you warm up the Dazhui Acupoint and relax the muscles near the point, you can feel immediately that the whole body warms up. The point is also known to relieve fever, control energy, relax the mind and keep your brain healthy and stamina up.
- It relieves fever when the body temperature is too high while warms up when it is too low.
